Please note that if you would like to enter GroupWise WebAccess, you must have a **GroupWise password** (not to be confused with your network password).

If you cannot log into the new GroupWise WebAccess, please visit us at the Technology Department in the administration building between 7:00 a.m. and 12:00 p.m. We will give you one-on-one instruction on how to set up a GroupWise password so that you may access GroupWise WebAccess via the Internet. Or, [click here](#) for instructions to create your own password on a **Mac** and [click here](#) for instructions on a **PC**.

If you would like to go to the new **GroupWise WebAccess**, please [click here](#). To be directed to the **Staff Resources** page, [click here](#).

Attention America Online Users:

If you use AOL to access the Internet on your computer, you may not be able to login to the GroupWise WebAccess. According to Novell, the AOL Internet browser is not supported for GroupWise WebAccess. The following procedure has worked for some customers:

- Connect using AOL, minimize the AOL browser window, launch a copy of Internet Explorer, and type in <http://www.gpsk12.net/gw/webacc> in the address bar of Internet Explorer.
