The Grandville Athletic Boosters Club contributes to the financial support of the athletic programs at Grandville Schools. These contributions include new equipment, warm-ups, facility rentals, scholarships and much more. In 2008, the Booster Club contributed more than \$20,000 to the athletic programs at Grandville High School. This is made possible through the generous support of booster members, parents, fans and the community. The sole purpose of the Athletic Boosters organization is to provide our athletic programs financial support during the entire school year. On behalf of the Boosters' board, we hope you will participate in supporting our student athletes through membership in the Athletic Boosters Club for the 2009-2010 school year.

The Boosters also maintain an **Athletic Alumni Brick Garden**, located within the football stadium main gate, adjacent to the field. Alumni bricks can be purchased for **\$50** each. If you are interested in purchasing a brick, please complete the bottom section of the membership form and enclose an additional \$50 with your membership donation.
